Since Disability Essex (the Essex Disabled People's Association Ltd) was formed in 1949, we have recognised the importance of local support to disabled people, their families, and their carers.

Disability Essex relies on the money it raises to help ensure the continued delivery of services to and for disabled people in Essex. The financial support we receive from Trusts, Foundations, Local Authorities and European funders cannot be guaranteed but, without this assistance, the charity could be left vulnerable and with insufficient income to assist all the people needing our support and advice.
